SUMMARY

Aspiring developer with experience in Web and Game Development, skilled in C#, HTML, CSS, JavaScript, and Unity. Effective at conceptualizing gameplay ideas and collaborating in teams to deliver high-quality, requirement-driven solutions.

EXPERIENCE

Web Development Intern 06/2025 – 07/2025
Zidio Development

- Completed a one-month full-stack internship building **IntellMeet**, an AI-powered enterprise meeting and collaboration platform on the **MERN stack**.
- Implemented real-time video conferencing and signaling with **WebRTC** and **Socket.IO**, plus an embedded AI layer for automatic transcription and meeting summarization.

Machine Learning Intern 04/2025 – 05/2025
E-Train

- Collaborated in a 5-member team to develop a predictive model, **improving data processing efficiency by approximately 20%**.
- Applied feature analysis and model evaluation to address technical challenges and delivered results to stakeholders.

Unity Game Engine Intern 06/2024 – 07/2024
EBTS Organization

- Developed **3+ interactive prototypes** using Unity AR/VR fundamentals, focusing on asset management and C# scripting.
- Optimized scene setup to decrease prototype loading times during testing.

EDUCATION

B.Tech in Computer Science Engineering 08/2022 – 07/2026
Integral University - Lucknow GPA: 7.9/10

Intermediate (Class XII) 01/2021 – 12/2021
St. Mary Inter College - Etawah, India GPA: 7.7

PROJECTS

IntellMeet – AI-Powered Collaboration Platform | *MERN, WebRTC, OpenAI Live Demo*

- Built low-latency **peer-to-peer video/audio via WebRTC** with real-time chat and signaling through **Socket.IO**.
- Integrated **Whisper** and **GPT-4o** to auto-transcribe meetings and generate summaries, action items, and engagement scores.
- Added automated **PDF reports**, an analytics dashboard, and role-based auth with a Node.js/Express + SQLite backend.

Custom Google Gemini Gems Vault | *React JS* [Live Demo](#)

- Built a React app for browsing and reusing a curated library of custom Google Gemini Gems with clear purposes and full instructions.
- Implemented category/search filtering and **one-click copy controls** for quick Gem creation in Gemini.

FIFA World Cup Database Portal | *HTML, CSS, JS* [GitHub](#) | [Live Demo](#)

- Built a responsive **HTML5/CSS3** interface presenting historical FIFA World Cup data from 1930-2022, including hosts, winners, and final scores.
- Created UI elements for team analytics and quick access to historical statistics and milestones.

Sport Store E-commerce Website | *C#, CSHTML, CSS, JS* [GitHub](#)

- Architected a full-stack solution using **C# and CSHTML** for server-side logic and modular rendering.
- Implemented shopping cart and user authentication features for state management.

Animal Matching Game | *C#, .NET MAUI, XAML* [GitHub](#)

- Built a cross-platform **.NET MAUI** app with an asynchronous game loop for real-time user interactions and time-extension rewards.
- Used **MVVM architecture** to decouple game logic from UI, ensuring smooth, responsive touch events.

SKILLS

- Languages:** C, C++, C#, Python, JS, SQL
- Frameworks:** Unity, .NET MAUI, MERN Stack
- Web:** HTML5, CSS3, Bootstrap, React JS, Node.js, Express
- Tools:** Git, GitHub, VS Code, Jupyter, Pandas, Socket.IO
- Soft Skills:** Creative Writing, Critical Reading, Narrative Design, Prompt Engineering

CERTIFICATIONS

Full list with proofs: [GitHub Cert. Repo.](#)
